### A RACING MEET.

Local Horsemen Hope to Have One the Second Week in October.

A number of local horsemen are working energetically to arrange for a racing meet on the fair ground track during the second week in October. They consider that at that time they can induce a large number of horsemen to bring their animals here and enter them. The horses are now at Wayne and next week will be at Ponca, so that at the time proposed for the Norfolk races they will be on their way home and the owners will be pleased to enter them for a few races enroute.

There are a number of fast horses in the territory tributary to Norfolk that local horsemen are anxious to see entered together for a race and it is probable that they will be secured for this meet. They are: Billionaire, owned by A. J. Durland of this city; Jo Go, property of Mr. Zulant of Pierce; Minnie D, owner Till. Waller of Madison; Nebraska Bourbon, owned by Jim Waller of Pierce; W. O. Hall's Burtwood of this city and perhaps Lina V of Albion. With these horses entered, an interesting trot and pacing race is assured. There may be other entries in this race but the first five are practically certain.

For a running race they propose to have a half-mile and repeat in which they hope to secure Postonic and Bill L as two of the entries. A gray Minnesota horse is now here waiting for the race and it is expected that a number of other entries may be secured.

For one of the attractions it is expected there will be a Roman hippodrome race in which one man will ride four horses running abreast and it is presumed this will prove very interesting.

The promoters of the event also hope to arrange for a bicycle race in which a number of desirable prizes will be offered and many entries secured.

D. T. Jones, the lessee of the track is putting considerable work on it to place it in good shape for the expected meet.

A committee is now out soliciting for funds to be offered as purses and has been meeting with very fair encouragement. Merchants should give this more than passing notice, as it offers a day of sport that will draw people here from a considerable distance and as Norfolk has offered no special day of amusement this year, this should be made a success. It is hoped that if this meet is accorded due encouragement and if it proves satisfactory to horsemen and others who attend arrangements may be made for a more pretentious affair next year.
